History of GCT

History of GCT

Government College of Technology, Coimbatore was founded in 1945 as Arthur Hope College of Technology named after Arthur Hope, Governor of Madras Presidency (1940–46) by G. D. Naidu. The College was modelled after the then famous Germany's technical institutions with inputs by Stoll family and Hermann Weiler. Till 1950 the college functioned in Peelamedu, then a suburb of Coimbatore.

In June 1950, the college moved to its current location in Thadagam Road, Coimbatore. In 1951, the college was renamed as Government College of Technology (GCT). The college was initially affiliated to the University of Madras, later to the Bharathiar University and since the academic year 2001-2002 to Anna University. In 1981, the college was granted autonomy for its civil and mechanical engineering postgraduate programs. Subsequently, in 1987, full autonomy for all programs was granted.

Placements

About 70% of students were placed in on-campus recruitment. The highest package salary is about 7 LPA and the lowest package is about 3.5 LPA. Overall, average salary package is 4.5 LPA. Top recruiting company is Hyundai, HCL. Core roles were offered. About 25% of students got an internship. Some well known companies like OneDrive, ZOHO, HCL, Robert Bosch and Exterro visit our campus for placements.

Clubs

- Administration Aspirants Council (AAC)
- Rotaract club
- Green club
- Science club
- U's club

- Tamil Mandram
- Student Journalist Council

Infrastructure

The facilities like Wi-Fi, labs, classrooms, library were available for the students during the college hours. Labs are good and neat. There is also e-library available in our college. Both Board and Projector classrooms are present in our department. Hostel is available for full time.

Infrastructure

The facilities like Wi-Fi, labs, classrooms, library were available for the students during the college hours. Labs are good and neat. There is also E-library available in our college. Both Board and Projector classrooms are present in our department. Hostel is available for full time undergraduate only. The quality of food provided in mess is affordable. Sports facilities are great. Medical facilities were good.

Faculty

The teachers were well trained and educated. Their knowledge was very good. Some of the staffs were very helpful and friendly in nature. The teaching quality is good but only few periods were scheduled in a day. The course curriculum is average and old. It only provides few knowledge about industries.

Reviews from Alumni:

**DEPARTMENTS****PLACEMENTS****CLUBS****INFRASTRUCTURE****REVIEWS****CONTACT****LOCATION**

Reviews from Alumni:

George*Manager @ Tech Solutions*

"As my course is relevant to mechanical engineering and industry engineering I choose the course. Nothing is there for improvement in courses. More scholarships will be provided from government, alumni members, etc. In terms of extra curricular activities there around 10 active clubs which makes you active and knowledgeable all the time."

Megha*CEO-iTech pvt. lmtd.,*

"Our college is around 75 years old. So the infrastructure is moderate but new buildings were constructed and renovated. The college has Wi-Fi and lab facilities. Installation of lift is in progress. Hostel infrastructure are to the worst and will be so small since its an government institution. This is the college were you will learn to survive on your own."

Stephen*CEO-WebSet Services*

"The college has an infrastructure that is above par for a government institution. The workshop lab in the college has machines which have the best-in-class technology, and also, the college provides Wi-Fi service all over the campus. The classrooms are also equipped with smart class equipment. There are many clubs in the college like a Rotract club, green club, literary and debating society, automobile society, photography etc are the various clubs in the college."

Subha*Software Developer@Google*

"The course fee is very less compared to other colleges. The fee is around INR 10,000 per annum. There are many scholarships available for the students like government scholarship, alumni scholarship etc. Almost 80% of the college students are eligible for any of the scholarship. Everything is fine super good, very fast development inside laboratory, central library is quite cool, lot more expectations fails due to government college."
